**INTERVIEW SUMMARY**

Commissioner for Patents

Alexandria, VA 22313-1450

Sir:

Pursuant to 37 CFR 1.133(b), the Applicant makes of record a telephone interview conducted in the above-identified application. The telephone interview was conducted between Examiner Sutton and the Applicant's representative on November 4, 2009.

In the interview, the Advisory Action of October 23, 2009, the response of September 18, 2009, and the Office Action of June 18, 2009 were discussed. Applicant's representative explained that the Advisory Action was improper because the claim amendments in the response of September 18 consisted only of (i) incorporating allowable subject matter into the independent claims, and (ii) correcting claim objections as the Examiner suggested. The Examiner agreed with these remarks, and further agreed to withdraw the Advisory Action and issue a Notice of Allowance.

Based on the results of the interview, the Applicants respectfully submit that the present application is in condition for a Notice of Allowance. If the Examiner feels there are any issues

remaining which must be resolved before the application can be passed to issue, the Examiner is respectfully requested to contact the undersigned by telephone in order to resolve such issues.

Respectfully submitted,

Yoshiyuki OZAKI
